

I want to write to let you know the positive effect that Air 1 has on our immediate community. The diversity of listeners are wide, as the music appeals to not only Christians, but non-spiritual people as well. If they were to be removed from the air, we might lose some of the positive optimism held by so many during these trying times. Please do not drive Air 1 off the local FM translators. Thank you very much for your time, Jeffrey Marttala: Air 1 listener and supporter.
